## PROJECTS

### E-Commerce website clone (AMAZON.IN)

- The project is an HTML-CSS-based clone of Amazon.in.
- This project is a Static replica of the Amazon

### Adaptive Headlights System for Night-Time Security and Safety.

- Was a part of the three-member team in order to implement and build this project.
- This project aimed to make night-time driving safe and comfortable by allowing the headlights to rotate along the steep turns, thereby covering the blind spots while driving.
- This is micro-controller based model

### Lithium-ion Battery Charger

- I was part of a nine-member team to implement and build this project.
- This project aimed at making the cheap and secure method for charging the lithium-ion batteries
